

## Spring 2019

<b>Date</b>	<b>Speaker</b>	<b>Organization</b>	<b>Title</b>
01/31/ 2019	<b>Dr. Cynthia Collins</b> Associate Professor, Department of Chemical & Biological Engineering	Rensselaer Polytechnic Institute	Engineering microbial communities for form and function
02/07/ 2019	<b>Dr. Scott Banta</b> Professor, Department of Chemical Engineering	Columbia University	Engineering the Calcium-Dependent Beta Roll Peptide for Biotechnology Applications
03/07/ 2019	<b>Dr. Robert Hurt</b> Professor, School of Engineering	Brown University	The Sixth Element – Chemical Engineering Approaches to Nanocarbon Assembly and Safe Design
03/29/ 2019	<b>Dr. Tim Bunning</b> Chief Scientist, Materials & Manufacturing Directorate	Air Force Research Lab	Materials Science and Engineering at the Air Force Research Laboratory
04/18/ 2019	<b>Dr. C. Daniel Frisbie</b> Distinguished McKnight University Professor and Head, Department of Chemical Engineering and Materials Science	University of Minnesota	New Materials & Printing Processes for Flexible Electronics
04/25/ 2019	<b>Dr. Thomas Adams</b> Associate Professor, Department of Chemical Engineering	McMaster University	Finding the signal in the noise: Determining North America's best path forward for sustainable energy
